

FESTIVITIES BEGIN ON JOHN BULL'S ISLE

JUBILEE CELEBRATION COMMENCES AT LONDON.

The Journey of the Queen From Windsor to London a Series of Ovations—Whitelaw Reid Most Cordially Received By Her Majesty—Cheers the Venerable Ruler.

London, June 22.—The celebration of Victoria's jubilee was successfully inaugurated Monday.

The queen in the evening entertained at dinner ninety of her most distinguished guests in the state supper-room at Buckingham palace. Among those present were the Prince and Princess of Wales, the royal guests, the envoys of states with the rank of ambassador and the great officers of the household, who were full court dress.

The spacious supper-room was a fairy sight, exquisite costumes, diamonds and countless gems, the most brilliant of uniforms, stars, orders and crosses, without end.

After the dinner the queen proceeded to the grand salon to the ballroom to receive her guests, the envoys and their suites, the Indian princes, the officers of the Imperial forces and of the native Indian escorts and the officers of the queen's German regiment.

The colonial premiers, with their wives, were presented to her majesty by Mr. Chamberlain, secretary of state for the colonies, and suites of royal and other guests were presented severally by their chiefs. The great officers of state attended in full court dress.

Messdames Whitelaw Reid, Nelson A. Miles and Ogden Mills were presented by the queen's special command.

The colonial premiers were the guests of the city of Birmingham Monday. They were heartily welcomed by large crowds of people and were entertained at luncheon by the lord mayor. The secretary of state for the colonies, Mr. Joseph Chamberlain, and the lord mayor toasted the visiting premiers, and Mr. Wilfrid Laurier, the premier of Canada, responded. In so doing he alluded to the growing feeling that there should be more intimate connection between Great Britain and her colonies.

Mr. Chamberlain, in reply to the toasts of her majesty's ministers, dwelt upon the great significance of the visit of the premiers to Great Britain, which, he said, demonstrated to the world the unity of the empire.

The first grand function in the jubilee of Queen Victoria was the reception at Buckingham palace of the special envoys sent by foreign nations. Mr. Whitelaw Reid was received in the most cordial manner possible. Her majesty expressed her sincere thanks to President McKinley and to "the great nation of our kinsmen."

CHEER THEIR RULER.

English People Give a Royal Welcome to Queen Victoria.

London, June 22.—The queen is now in London. An immense crowd gathered near Paddington station in the early hours of Monday and waited with stolid patience.

The early hours were enlivened by the pealing of bells and in the morning breeze everywhere floated the royal standard. The first point of interest in the day's proceedings was Windsor, where by 6 o'clock the short route leading from the castle to the railway station was lined by a mass of people gathered to see the queen start.

Flags and flowers were everywhere and the order of the day "God save the Queen" appeared on houses and banners without end. The statue of the queen near the castle was decorated and gorgeously canopied in the renaissance style and tall Venetian masts with their fluttering pennons lined both sides of the route.

The start for London was made at 12:10 o'clock, and for almost the entire distance the train passed between scattered groups of loyal people. Every station between Windsor and Paddington had been decorated. The railway employees everywhere stood at the salute, while the platforms were crowded with cheering people. Paddington was reached at 12:30 p. m.

Owing to the recent explosion of bombs in Paris and the arrival in England of many foreigners known to be connected with anarchy, the Scotland Yard authorities have been very active. The whole route of the procession tomorrow has been closely examined, especially the bridges and stands in their vicinity.

THE JUBILEE HONORS.

Satisfaction in England Over Their Distribution.

London, June 22.—The Times and all the morning papers contain long telegrams from the colonies describing the enthusiasm in connection with jubilee fetes.

The editorials express a rather quiet satisfaction over the jubilee honors, though the Liberal organs betray some measure of disappointment. Literature is practically ignored. There is unanimous approval, however, of the honors conferred upon colonial statesmen.

and this is especially keen in the case of Mr. Laurier. The admission of the premiers to the privy council is regarded as a sort of recognition of the right of the colonies to share in the imperial councils.

DAILY BASE BALL REPORT

Results of Yesterday's Games Played in the Various Leagues.

Baltimore, which baseball prophets predicted would not be headed during the season, surrendered first place to Boston yesterday. The latter has been coming at a terrific clip, and seemed certain to take the lead, but the champions helped them on by slipping up on two games with New York, having difficulty with both Rusie and Meekin. The series between Baltimore and Boston the last of this week promises to be a memorable one. Chicago opened the western campaign yesterday by winning in good style from Pittsburgh. Washington continued its remarkable work, downing the Phillies. Louisville made a break in its chain of defeats by winning from Cleveland.

It is alleged that the pay car is nearly six months overdue. President Crawford wired from New York today that one month's wages would be forthcoming if the strike was declared off. His proposition will probably be accepted.

DOING GOOD WORK ON THE MEASURE

SENATE DISPOSING OF THE TARIFF BILL.

Fifty-Six Pages Acted on Monday—Isolated Paragraphs to Be Taken Up—The End Is Not Far Off—Want Dingley Rates on Wood—An Adjournment Taken.

Washington, June 22.—The senate made good headway with the tariff bill Monday, but Senator Allison was careful to steer clear of all paragraphs on which there is liable to be a disagreement among the Republicans. The tariff leader does not want to repeat the experience of Saturday, when several paragraphs in the bill were lost by the defection of two Republican votes. It is necessary to hold the Republicans together and draw additional support, and Senator Allison knows that the finance committee cannot have its amendments voted for by all the Republicans unless there is agreement on the Republican side of the chamber.

The paragraphs on wool, silk, hides and tea were passed by for the present, and they will not be taken up in the senate until they have been submitted to a Republican caucus. The finance committee has prepared a new wool schedule making the duties 10 cents per pound on first class, 11 cents on second class, 7 cents on third class if worth more than 10 cents per pound, and 4 cents if worth less than 10 cents.

This is an increase over the original committee amendment, which proposed a duty of 8 cents per pound on first-class wools, 9 cents on second class, and 4 cents on third-class wools worth less than 10 cents a pound.

The Dingley schedule provided a duty of 11 cents on first-class wools, 12 cents on second class, and 32 per cent ad valorem on that class worth 13 cents or less per pound.

The wool men are not inclined to accept any less than that in the Dingley or house bill, and the new amendment, as well as the whole wool question, will have to be settled in a Republican caucus.

At 5 o'clock the bill was laid aside, the day's work having covered pages 135 to 190 inclusive.

After a brief executive session the senate adjourned.

MAKE NO CHANGE IN RULES

Elevator Men Score Victory on the Chicago Board of Trade.

Chicago, June 22.—The anti-elevator faction on the board of trade were overwhelmingly defeated yesterday. The vote was larger than is usually cast when an amendment to the rules comes up. There were 1,626 votes polled, 341 being for and 685 against the proposition.

The proposition was to amend section 1 of rule 21, by substituting the following for the second and third paragraphs of the present rule: "Warehouses so declared regular by the board of directors shall not be used by the proprietors or managers thereof for storing therein any grain or flax seed bought or owned by them or any of them, directly or indirectly, or for storing therein any grain or flax seed which has been cleaned or mixed in any way in any elevator or warehouse in which such proprietors or managers, or any of them, are or may be directly or indirectly interested."

Commend the Chicago Home.

St. Paul, Minn., June 22.—In the United Norwegian Lutheran convention Monday the most important work was the election of officers: Trustees, H. Roalkvam, Ole O. Thomsen, alternate; and A. H. Klove, P. J. Reinerson, alternate. Principal of United Church Theological seminary—Prof. M. O. Berkman; vice-president, Prof. O. C. Aubal, Editor of Luther's Borneblad—O. Nilson. Editor of Christian Youth—Th. Eggen. Revisors—T. Sanderson, Emil Jacobson. Convention committee—President, C. G. Hauge; Prof. E. G. Lund and O. C. Aubal. Committee for the aid of needy ministers and widows—R. Anderson, N. Arneston and Mr. Gulbrandson.

The afternoon session was set aside for the consideration of the Lutheran Deaconess' Home of Chicago. The result of this discussion was that the hospital was recommended, with the good will of the church.

AEROLITE FALLS IN KANSAS

Unusual Event Startles the Citizens of the Great Wheat State.

Wichita, Kas., June 22.—With a flash that lighted up the city, a ball of white fire shot across the sky here at 10:50 last night. The flash lasted about one and three-quarter minutes. It seemed about the size and shape of a barrel, and bright, stiff flames flared out from the sides and followed it.

In the northwest the thing burned to a bright coal and dropped on down to the horizon, after which was heard a sharp, heavy report that rumbled like distant thunder for fully a minute.

George Daisy, who was driving two miles northwest of town, was severely shocked, and his horse was knocked to the ground. People ran out on the streets in excited crowds.

Mulvane reports that the shock was distinctly felt there, and that the light appeared about as it did here. The night operator at Burton, northwest of here, and between this place and Hutchinson, reports that the shock there was severe and seemed to come from the south. Nothing could be learned from Hutchinson. At Garden Plain, due west of here, the shock came from the north.

Hon. E. F. Ware, who is here; Dr. J. G. Johnson, and the local weather observer, and Maj. Ewing, are of the opinion that a great aerolite has fallen northwest of town.

JAPAN IS IN AN UGLY MOOD

Plan to Annex Hawaii Arouses the Mikado's Government.

Washington, June 22.—Uncle Sam is likely to have a great deal of trouble with the Japanese over Hawaii.

Monday the Japanese minister filed at the state department a protest against the proposed annexation of Hawaii to the United States.

The protest is based upon the contention that Japan has a treaty with Hawaii which permits the migration of Japanese subjects to the islands under certain conditions. Pursuant to the terms of that treaty large numbers of Japanese have made Hawaii their home. If now the United States annex the islands these subjects of the mikado will lose the rights which they have obtained, as the system of the United States is vastly different from that of Hawaii.

The Japanese claim that they are so largely interested in Hawaii that they should have been consulted as to annexation. They contend that their interests are so great as to entitle them to consideration. Of course it is well understood that Japan is aggrieved because she had designs of her own upon Hawaii, and because the United States has stepped in and beaten her at her own game.

THEY SAY WEYLER MUST GO

Manifesto of Spanish Liberals Against the Butcher.

London, June 22.—The Madrid correspondent of the Standard says: "The Spanish liberals have adopted an attitude which will probably create a profound sensation both here and in the United States, but which is little calculated to improve the situation. They have resolved to issue a manifesto declaring that the liberals would persist in abstaining from all relations with the government so long as the Duke of Tetuan is retained in the cabinet.

The manifesto will characterize the proposed reforms of Canovas as inadequate, and suggest the replacement of Captain General Weyler by a governor who will continue the war in accordance with civilized practices; the stopping of the reign of terror and the appointment of a civilian as royal commissioner, with full power, distinct from the military authorities, to execute reforms of the widest autonomy in political, administrative, economical, tariff, and legislative matters compatible with the preservation of the imperial sovereignty.

"The manifesto will promise to go very far in the direction of a sacrifice of Spanish commercial interests and of sharing the burden of colonial war debts in order to secure peace."

Death of Captain Boycott.

He was a land agent in 1881 in the Connemara section of County Mayo, where he collected rents for a number of landlords, notably the Earl of Erne. The captain made a speech, in the course of which he urged the people of Ireland to abstain from agrarian crimes and to adopt instead a policy of sending harsh landlords, agents and bailiffs "to Coventry," the old term for boycotting. Events so shaped themselves that Captain Boycott was the first man the Irish experimented on in this connection, and hence the now familiar word of "boycott."

Saturday. She came to spend a week with relatives. The four schools here have decided to have a picnic July 3, in Burton's woods. The Porter band has been engaged to furnish music, and a program including dialogues, recitations and singing by the pupils, has been arranged. Tables will be provided, and all are invited to come and have a good time. A good crowd attended the social at W. B. Andrews' Friday night, and all had a good time. Hyatt Weaver went to Brodhead Friday, to the Modern Woodmen's picnic. He plays the snare drum with the Janesville Musical band. What a vast amount of good the rain of last Wednesday and Friday night did our town. Strawberries and raspberries that seemed to be dying, have taken new life, and are yielding much fruit. The farmers are busy setting tobacco and all things, weeds not excepted, are growing. Mrs. Mattice and Mrs. Aheson can ride the wheel gracefully at last. Practice makes perfect. Elder Newton and wife drove to Bass Lake Sunday, where he had appointment to preach in the evening. Miss Grace Aheson of Janesville, is spending a week with relatives and friends here. Joe Foy is the guest of his father-in-law, J. Worthing. Miss Hattie Townsend has two lady cousins visiting her, from Footville. Several of the farmers here have lost horses the past week, from sickness. The two Ernests were initiated into the Modern Woodmen lodge last Saturday night. They were both alive Sunday.

FAIRFIELD WOMAN IS NO MORE

Mrs. Martin Eldredge is called to the Final Rest.

Fairfield, June 22.—Many hearts were made sad on hearing of the death of Mrs. Martin Eldredge, which occurred at her late home on Saturday last. She had spent most of her life in this vicinity, and being possessed of many womanly qualities, had endeared herself to a large circle of friends. She leaves a husband and three children to mourn the loss of a devoted wife and fond mother; also her parents, two brothers, and two sisters. Ole Eye has purchased the Ackerly homestead. D. L. Kane is re-siding and painting his house. A. E. Mource has improved his house by the use of paint and brush. B. Conry is renovating his dwelling, and will occupy it in the near future. We are glad to note that J. E. Dykeman is recovering from a severe illness. The children's day exercises have been postponed to Sunday evening, June 27. Mr. and Mrs. W. W. Dykeman are enjoying a visit with their daughter, Mrs. William Warman from New Jersey. Road Commissioner Duthie is doing good work on the highway. He is the right man for the right place. Mrs. Andrews and her daughter, Miss Emma, returned last week and will reside over the Thompson mansion during the summer, or longer. The Modern Woodmen have secured rooms over the butter factory. We hope the event will not impart a woody flavor to the product of the factory. Mrs. William Johnson and Mrs. Ann McCarthy left last week for Illinois, Iowa, being called there by the illness of their sister, Mrs. Marion Smith.

Bring refreshments, also one lemon. Roy Barless and Percy Munger, of Janesville are off to Chicago on their wheels. They expect to be absent a week. Heavy rains fell last week Wednesday and Friday nights, which were greatly appreciated. The telephone line suffered considerable damage by lightning. Tobacco setters are pushing their jobs as hard as possible. Plants are plenty in spite of hard frosts. Gillies & Jones sell the Janesville woven wire fencing. Mr. and Mrs. John A. McArthur spent Sunday in Whitewater with Mrs. McArthur's parents. J. C. Scott is making preparations to build

The Misses Jennie Sperry, and Maggie Earle, finished the course of study and received diplomas. The Misses Lizzie and Alice Bernan, were guests of Leo Chesbro, in the town of Fulton on Sunday. Farmers are busy setting tobacco. A good deal of re-planting seems also necessary, owing to the cutworms, etc. W. H. Flarity, of Fulton, spent Sunday with friends. S. Watson, wife and daughter, were visitors on Sunday. Miss Kate Ford is reported on the sick list. Mr. and Mrs. W. Bradley of Burr Oak, were here on Sunday. 1884—At 9 p. m., in Smith's sound, Captain Schley's command reached and rescued Lieutenant A. W. Greely and 6 others, only survivors of the Greely expedition to Lady Franklin bay.
1896—Hon. Benjamin Bristow, ex-secretary of the treasury, died in New York city; born 1832.

OH! WHAT A DIFFERENCE.

The returns from the world of business which are weekly showing almost phenomenal gains as compared with anti-election conditions ought to set William Jennings Bryan to thinking. One of the New York dailies gave him a knock-out blow last week by publishing a table of seven representative stocks showing their valuations at 1896, when Bryan was approaching the metropolis as the "advance agent of prosperity", and again last week when Bryan appeared to "expatiate" the securities taken were American sugar, St. Paul, Burlington, North-western, Rock Island, New York Central and Chicago gas. The gain in value was \$38,710,000. To this was added \$16,845,000, paid in dividends in the interim making a total of \$55,555,000. Multiply these returns by those of a thousand other stocks and as many bonds and the result is simply prodigious. The claim cannot be made that these appreciations are due to manipulation. Securities do not go up and stay up unless there are substantial reasons. In this particular instance the causes are not hard to find. The country after four years of Clevelandism and one year of Bryanism is beginning to breathe. The signs are abundant and will become still more numerous when the tariff bill passes. In May the earnings of 196 railroads increased \$2,000,000 over those of May 1896, the prices of all staples are advancing towards a point which will return a fair profit. In five months of 1897 the railroads bought 1,000,000 tons of steel rails or nearly a quarter of a million tons more than in the whole of 1896. The sales of Lake Superior iron ore to date aggregate 7,000,000 tons. The agricultural west is buying goods, mills are starting up where idle or increasing forces as the case may be. Six months from now it will be appropriate to ask, "Who is this man Bryan, where and in what age did he live and what did he do for his country?"

"WHEN WOMAN SUFFRAGE."

Equal suffrage is not working just the way it should. Women have been running the common council of Jamestown, Kas., for the last six months, and a woman has filled the mayor's chair. The natural sequence of such an order of things should be a model administration of government, early hours, crowded churches and the abolition of the police force as an unnecessary source of expense.

What has actually resulted?

A saloon has been established—something heretofore unknown. Cock fighting has become a popular pastime. The shooting of craps impeded the progress of the pedestrian on the highways, and the rattle of poker chips disturbs the dreams of sleep-minded citizens at night. Other shocking conditions must naturally accompany these, but enumeration pauses with the official report.

So abandoned, in fact, has Jamestown become under feminine rule that the self-respecting men of the community are about to hold a mass meeting for the purpose of denouncing this state of things and petitioning the ladies to turn over a new leaf or quit running the government and return to their babies and other domestic blessings.

The moral of this—but can there be any moral in so contradictory state of affairs?

The buzz of the reaper is cheering hearts in the southwest—a section that has been fed for more demagogic sentiment than actual trade profit during the last few years. In the central south the impulse to create new in-

tries and encouragement of those established, is daily more emphatic. The tendency of foreign trade to increase at southern parts, is so marked as to justify special attention to all southern projects, and to explain the altered southern sentiment as to protective duties.

The absolute unanimity of purpose in the republican party and the solidity of its ranks in the senate is distressing its enemies greatly. The party dissensions which they had expected to see crop out among the republicans have made their appearance on the iron side of the chamber, however, and this adds to the distress of the handful of gentlemen who assume to be the leaders of the party in and out of congress.

Wisconsin representatives in congress take a sensible view of the Hawaiian question. Representative Davidson suggests that "unless these islands come in some manner under the control of this country, they may pass under the control of some foreign power. The only way that I can see to obviate such a contingency is by ratifying the treaty recently presented to the senate."

Even Edward Bellamy is not wild-eyed enough to endorse Deb's cooperative republic. Bellamy suggests that however carefully the members of the republic are picked there will be some trying to make money out of others. He doesn't look for blind and unquestioning faith from a lot of men who spend three days discussing a \$5 appropriation for lodge stationery.

Half a dozen nations in Europe are quarreling over the privilege of supplying the United States with beet sugar, and not one of them has as favorable a climate and soil for producing the sugar as we have right here in Wisconsin. The Badger state must not be backward when the beet sugar industry is under consideration.

No subject being more carefully considered by President McKinley now than the Cuban question. It has been the cause of much anxious thought by him from the beginning, and there is good reason to believe that his plans are well developed and will be recognized as wide and satisfactory when they become known.

The democratic party at the Chicago convention was deprived even of its historic adverb "only," and William F. Vilas is having hard work to prove he was not to blame.

In all probability the silverites were quite as willing to unload Debs as he was to unload them. The question is now—which will collapse first.

A distinguished gathering is that in Beloit this week. The inspiration and strength that comes from Beloit training were never more fairly shown.

The boys in blue marched enough in the sixties to entitle them to a street car ride once a year.

One third of the southern vote in the present congress has been cast for protection.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received: Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectively cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

NERVOUS PROSTRATION.

A New Jersey Woman Expresses Her Gratitude to Mrs. Pinkham for Relief.

"Will you kindly allow me," writes Miss Mary E. Saidt to Mrs. Pinkham, "the pleasure of expressing my gratitude for the wonderful relief I have experienced by taking your Compound? I suffered for a long time with nervous prostration and general debility, caused by falling of the womb. It seemed as though my back would never stop aching. I could not sleep. I had dull headaches. I was weary all the time, and life was a burden to me. I sought the seashore for relief, but all in vain. On my return I resolved to give your medicine a trial. I took two bottles and was cured. I can cheerfully state, if more ladies would only give your medicine a fair trial they would bless the day they saw the advertisement, and there would be happier homes. I mean to do all I can for you in the future. I have you alone to thank for my recovery, for which I am very grateful."—Miss MARY E. SAIDT, Jobstown, N. J.

MR. BLABON FAVORS AN UP RIVER PARK

STREET RAILWAY PRESIDENT TALKS OF PLANS.

The "Flat" Opposite Crystal Springs Park Could Be Reached By a Span of Half a Mile Long—Prefers to Have Resort Under Other Management.

George W. Blabon favors the establishing of an up-river resort on quite an elaborate scale.

His idea is to have a park on the west side of the river that can be reached by the line of the electric road, in order that the passenger traffic would increase the revenue.

To a Gazette representative Mr. Blabon talked freely on the subject, at the hotel Myers this noon. He said he had studied the plan and had even looked over the property at the bend in the river where ball games were held several years ago. These grounds, Mr. Blabon said, could be reached with an extension of about a half mile from the present terminal on Washington street.

The spot that is now most favored is an ideal one on the "flats" nearly opposite the Crystal Springs park.

"I would like to run this car line to some such resort," Mr. Blabon said, "but I do not want to manage the grounds myself. My idea would be to join in with some person who could run the park and take a financial interest in it. I can not say whether or not anything will be done in the matter this season. The weather has been bad and the summer backward. If the people appreciate the service, we will put seven cars on the circuit this summer and give them better facilities than they have ever had."

Mr. Blabon is on his way home from St. Paul where he has been on business. He will remain in Janesville but a few days.

The new street cars will probably make their appearance this week. Supt. Cummins says the work of placing the motors is being pushed and there is little doubt but what one of the cars will be placed in service this week. Each car will be equipped with a twenty-five horse power motor.

CHICAGO MARKETS BY WIRE

Robert Lindblom's Letter On the Condition of Crops and Trade.

Chicago, June 21.—[Special to Byrd & Law, Commission Co.]—A transfer of a line of long July wheat from one house to another house was constructed by the crowd as being suspicious of manipulation and on the strength of it July wheat jumped up a cent a bushel. There is no importance to be attached to the transfer except that it has demonstrated that there is a short interest in July wheat which is liable to become alarmed at any time. There has been some demand for shipment today but not very urgent and to a very limited extent. The crop reports from winter wheat sections show an improvement and it is particularly reflected in the St. Louis market which is now below this market for July wheat and this notwithstanding the fact that Kansas wheat is not deliverable on contracts in St. Louis.

The amendment voted upon yesterday was defeated and we are now back to our original stamping ground and it is to be hoped that the trade will have a rest from legislation for some time at least.

The southern half of the winter wheat belt is getting a little too much rain for harvest operations, and that was one reason why the July options rather gained in strength over the September, as a wet harvest would mean a late harvest and small deliveries in July.

Corn formed on the cool weather which has been pretty general, but the copious rains will be of great benefit if warm weather ever appears.

There is nothing especially to note in the situation. Absence of foreign news helps to increase the dullness.

MANY WENT TO BELOIT TODAY

The College Jubilee Celebration was the Attraction.

There were at least thirty of the residents of the Bower City who were today more interested in celebrating the fiftieth anniversary of Beloit college than they were in honoring Queen Victoria of England. This number took passage to the Line City this morning in order that they might help Beloit honor this memorial day. Those who went were either former students or were personally interested in the welfare of the college.

AGED INSANE WOMAN TAKEN TO ASYLUM

SAD CASE OF MRS. O'HARA OF TOWN OF JANESVILLE.

Ever Since the Death of Her Husband, Some Years Ago, Friends Have Noticed a Change In Her—Forgot All About Her Thirty Years of Married Life.

After living with her husband for thirty years, Mrs. Johanna O'Hara, of the town of Janesville stoutly denied that she was ever married or that she ever had any intentions of getting married. Relatives and friends then began to think that she was mentally unbalanced, so Drs. J. B. Whiting and Q. O. Sutherland were asked to make an examination as to her sanity. They did so and pronounced her insane.

Mrs. O'Hara is seventy-eight years of age. She was removed today, by Turnkey Samuel Brown, to the county asylum. The case is a particularly sad one on account of the popularity and old age of the patient. With her brother Mrs. O'Hara has been residing on a farm about four miles from this city. For several weeks past it was noticed by those about the house that she would ask queer questions. One of the statements that she kept repeating of late was that she was never married. She seemed to forget all about the years of her married life, and insisted that people who disagreed with her were endowed with lively imaginations. Her friends kept constant watch over her for fear that some accident might befall her. Mr. O'Hara died some time ago, and since his death it was always thought by relatives and friends that sorrow weighed heavily on the mind of his devoted wife.

Various outdoor games were indulged in, and the occasion was a very pleasant one.

MRS. HOOVER'S CLAIM FOUGHT BY HEIRS

SEEKS PAY FOR SERVICES RENDERED HER MOTHER.

Other Children of Mrs. Frost Think That the Claimant Should Make No Charge For Nursing Her and Object to Her Collecting \$200 From the Estate.

Today, in County Judge J. W. Sale's court, brothers and sisters of Mrs. Elizabeth Hoover objected to her being paid \$280 for caring for their mother during her sickness prior to her death. The claim is made against the estate of the late Susan Frost, who formerly resided at 207 South Locust street. Mrs. Frost owned this property, and when she died last fall, it was left to her children. Prior to her death she was sick for some months during which time she was nursed by her daughter, Mrs. Elizabeth Hoover. It is now said that the promise was that Mrs. Hoover was to be paid for her services. This, it is said was the verbal agreement between the daughter and mother. When Mrs. Frost died the property fell into the hands of the children, and among the first of the bills to be presented was the one for nurses services by the daughter.

This bill was objected to by the other children, who thought Mrs. Hoover should be willing to donate her services. Mrs. Hoover sees the matter in an entirely different light, and has engaged Attorney E. D. McGowan.

FOR LITTLE FOLKS.

THE GOOD FAIRY.

How She Taught Little Dora to Think Less of Herself and More of Others.

Once upon a time, as most fairy stories begin, there lived in a large city a little girl who was very much dissatisfied because she could not have her own way in everything. And she was very selfish, too, giving no thought to the comfort of others until she was first attended to. One day she came to her mother and said:

"Mamma, I want a new cloak, for you see it is getting cold and the new will be here before you know it."

"But I cannot afford to buy you a cloak," said the mother.

"Why not?" asked the little girl pettishly.

"Because I haven't the money to spare; besides, your brother needs an overcoat. Wear your old cloak for a little while longer, my dear."

"Well, I won't, and so there!"

The little girl had no sooner uttered these words than she slammed the door and went up stairs to her room. For a long time she lay on the bed crying with vexation. Finally she arose and went to the closet where she kept her clothes and took down the old cloak.

"Hateful old thing!" she exclaimed, flinging the garment across the room.

"I'll never wear you again."

At that moment she caught sight of her own reflection in the looking glass over her bureau, and she was so startled at beholding such a face that she did not recognize herself at all.

"Keep on, keep on," said a tiny voice. "You'll soon make yourself old and ugly."

The little girl was surprised, but not frightened, for the voice did not sound harsh.

"Speak again, please," she begged, "and let me see you."

"Not until you smile," said the mysterious voice.

"I don't feel like smiling, for I am very much vexed," said the little girl.

"Are you a fairy?"

"Yes."

"Oh, come quickly and let me see you." Then she smiled very sweetly, and the fairy showed herself—a tiny creature, all dressed in white—and she stood on a pin cushion.

"Pick up the cloak, little girl, and hang it on its hook."

The little girl obeyed.

"Now, then, listen to me," went on the fairy. "Remember that the cloak you so much despise has given you much comfort."

"Yes, but it's old now," said the little girl.

"True, but not too old to give you still more warmth. Would you have your little brother go out without an overcoat and freeze?"

"Oh, dear, no!"

"Then have patience. Think of your mother and your brother and not of yourself. Above all things don't get angry again."

"Why not?" asked the little girl.

"Anger brings wrinkles and unhappiness. Shall I come again?"

"Yes, indeed. Come often. And, dear little fairy, forgive me for acting so, won't you?"

"I will. Goodby."

"Goodby," answered the little girl in a happy voice.

She then began to sing softly to herself. When she went down stairs again, she took the cloak and said as she entered the room:

"Mamma, why, my cloak isn't so old as I thought. I'm not going to get angry again, because I don't want to be naughty and have wrinkles before I get old—truly old, you know."

And the little girl kept her promise and was very happy, because she thought more of others than she did of herself.—Brooklyn Eagle.

Faithful Dick.

I've waited here and waited,
And he is not yet in sight.
This saddle's warm and heavy too.
The girl is stiff and tight.

'Tis getting near my mealtime.

Has the patience of a saint.

At play with Prince, the colt.
Oh, hurry, hurry, Master George,
Or faithful Dick will bolt.

Jack's Mud.

"If I only had a place to put all the mud I got on my shoes and clothes playing outdoors these days, I'd soon own a couple of acres—wouldn't I, mamma?" observed Jack as he prepared to retire for the night.—Harper's Bazar.

GIVES STRENGTH TO MEN

Free To All Who Are Weak And Worn

A METHOD TO CURE AND INCREASE THE POWER.

It is a remarkable fact that a man never appreciates the sufferings of others until he himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and money gladly for the

benefit of others and never tires of his zeal. There are plenty of men weak and worn out struggling with remorse and fear, the natural outcome of habits that brought incapacity; a sense of uselessness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 494, Kalamazoo, Mich. He will send free by mail, in a plain, sealed envelope, full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method that Mr. Slater used to cure himself of the troubles that sap the strength and vigor and also enlarged his organs to natural size. The cure was complete, so satisfying and such a wonderful change from his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and sufferings of others. There must be generous men in this world to offset the tide of avarice. Write to Mr. Slater—he will cost nothing for his description and method.

WOMAN'S WORLD.

THE IRISH JOAN OF ARC AND THE WORK SHE HAS UNDERTAKEN.

Miss Anthony Answers Her Critics—The Rage For Plaiting—Summer Wraps Is a Serious Question—To Purify Water. The Fashion in Gloves.

Miss Maude Gonne, who has been called the Irish Joan of Arc because of all she has done for the Irish national movement, is about to visit the United States. The main object of her visit will be in reference to the centennial celebration to be held in Ireland next year.

Miss Gonne is the daughter of a colonel of the English army. All her people are Conservatives and on the side of England. While visiting friends in the north of Ireland she saw some cruel scenes. So touched was she by the sights she witnessed that she immediately resolved to throw in her lot with the sufferers.

She worked for a long time among the evicted tenants, then took up the amnesty question, and when things looked dark and gloomy at home because of the Parnellite split she went to France, where her reception was most flattering. Her latest move is to start a paper called L'Irlande Libre, the title of which sufficiently indicates the object.

The following interesting answers have been given by Miss Gonne to questions propounded to her by a representative of The World:

"What is the object of the movement you are organizing for 1898?"

"The first idea is to keep green the memory of the revolution of 1798 and of the heroes who gave up their lives struggling for their country's liberty. This is a national duty. It may appear sentimental, but it has immense advantages. Besides its direct influence in the way of promoting enthusiasm

MISS MAUDE GONNE.

among the people, the celebration will afford a grand opportunity of setting Ireland right before the world as far as her relations with England are concerned. England is constantly trying either to draw the veil of silence over Ireland or to spread untruths and to say the Irish are getting more and more contented under English rule.

"I do not say that all of us Irish are entirely free from blame in this matter. For instance, England's task is made easier by the fact that certain Irish members of parliament have actually voted extra taxation for Ireland for the purpose of strengthening the British fleet. Foreign nations have been thus led to believe that the Irish people are willing to bend the knee to their oppressors if thereby they gain a mere passing advantage.

"All this is a great injustice. The best way to counteract it is to invite delegates from the liberty loving countries to Ireland to take part in the centennial celebration of next year. They will then have an opportunity of witnessing the enthusiasm of the people, of seeing that they are dissatisfied with English rule and that they have ample reason to be so."—Paris Cor. New York World.

Miss Anthony Answers Her Critics.

An interview lately appeared in the St. Louis Republic with a Mrs. Beckwith of Brooklyn, who accused the leaders of the suffrage movement of being in it from mercenary motives and of making "a fat thing" out of it. Miss Anthony and others were mentioned by name. Miss Anthony wrote to The Republic in reply. She referred to her long connection with the movement and continued:

"During that time I have never had \$1 for my services, nor have I ever received any money from the national association for my suffrage work in the last 50 years. I am usually paid for my lectures by any society which sends for me to come to a special place. In all of the laborious state campaigns, including the long, hard one in California last year, I have given my services without money and without price. The various requests that have been left to me to use at my discretion have all been appropriated to the suffrage cause. Not a dollar of them has found its way into my pocket, and the slender income upon which I live is derived from an annuity purchased for me by my friends.

"Not one officer of the National Woman Suffrage association is or ever has been paid for her services, and most of these women have contributed many years of hard work and a large amount of their own money. Mrs. Carrie Chapman-Catt, the national organizer, goes to her office every morning and does a full day's valuable work without a cent of salary or other financial remuneration, and this she has done for several years. She is able to do this because her husband is a man of good business and comfortable income. Rev. Anna H. Shaw depends for her own support and that of a number of relatives whom she is educating upon the money received for her lectures, which are always furnished to suffrage associations at reduced rates and very often absolutely donated to them. I do not know one of

the leading workers in the suffrage association who is making any money whatever out of it, and I do know that all of them could make a great deal of money if they would use their abilities in other directions. The great obstacle to our success is the lack of funds to carry on the work.

"I should not take the time or space to make even so much of a statement as this were it not that such attacks as that of Mrs. Beckwith are frequently made, and though I do not mind them personally I fear that they may injure the cause of woman suffrage, which I value above all else in the world."

The Rage For Plaiting.

A wild craze has set in among the ultra fashionable for materials heat pressed in the manner known as sun plaiting, accordion kilting, etc. To quote from a famous French fashion designer, "Every woman who respects herself must wear the radical plaiting in some form or other." This mode of manipulating goods both thin and weighty extends to whole costumes, waists, capes, frills, collarettes, hats, fichus, etc., and in Paris much of the newest expensive underwear is kilting or accordion plaited. Some of the fresh summer toilets so arranged are certainly very charming, but, as was recently mentioned, the straight folds easily mar when one is obliged to sit upon them, and this is a great disadvantage to the fashion, but it is greatly obviated by sash draperies at the back, and not a few of the plaited skirts are now half covered by the overdress, which seems to be persistently making its way among approved summer styles.

A ribbon belt passed through a handsome oblong buckle at the back of the figure, the ribbons tied either at the side or in front in a smart looking empire bow, is still the popular finish to the waist of demidress gowns. The most usual method of tying the ribbon is to form somewhat long loops standing upward, with corresponding loops below the waist. These look better when slightly irregular in length. Attention to such details may appear unnecessary, but in reality they are not unimportant. Much more depends on trifles of this sort in the general effect of a gown than might be supposed. It is the Frenchwoman's attention to the minor details of her toilet, however trifling, that has endowed her countrywomen with the well merited reputation of being the best dressed women in the world. Be she parlor maid or marquise, it is all the same. Alike they are as perfectly and charmingly dressed as their several circumstances will allow them to be.—New York Post.

Summer Wraps.

The matter of summer wraps and coats is a particularly serious one this season, for the recent styles of dress demand some outer garment, and yet, in spite of the sleeves being smaller, do not seem exactly suited to always being worn with coats and jackets. There is an unusual number of different styles in the wraps, and all sorts of materials are used, while in many cases two or three materials are combined. There are also several shapes to choose from, and there is a great difference in the weight among them, so it would seem as though every one might be suited and find a garment becoming and at the same time useful. All reports to the contrary, neck trimmings are very full, and chiffon and mousseline de soie are not yet banished from the list of fashionable fabrics. On the contrary, they seem to be more in favor than ever.

Iridescent trimmings, jet, silk, satins and velvets—all these old favorites are again used, until positively some of the new capes look as though the contents of a treasure trunk had been ransacked in order to secure the desired result. All the smartest styles have silk linings, and not only black silk, but all the many colored taffetas are employed for this purpose, thus showing that the well-gowned woman of today demands a good finish to everything she wears and is not content with a smart outside to her wrap and a cheap cotton lining inside. This very detail of finish is one reason that the new things look so smart and fine and have the desired appearance of being absolutely fresh. Two silks put together add each to the other's beauty, and it does not follow that the expense is greatly increased, for two cheap silks are better than one expensive one made up on cheap lining.—Harper's Bazar.

To Purify Water.

In an interesting talk given before the Brooklyn Woman's club by Mrs. E. M. Richards from the Institute of Technology of Boston the speaker told most promisingly of the advances being made in the study of domestic science.

In the discussion which followed Mrs. Richards' talk many practical questions were asked by the eager housekeepers who largely made up the Woman's club. The answer to one of them will be of interest to every housekeeper. This is in relation to a simple and efficient way to purify water. A small vial of the crystals of permanganate of potash carried in one's traveling bag will, according to Mrs. Richards, make one comparatively impervious to the dangers of impure drinking waters. A small piece or two of the crystals added to a pitcher of water that one is offered at the summer boarding house or the seaside hotel room or in European stopping places, anywhere, in fact, where the history of the water supply is either unknown or suspected, will quickly rid it of all dangerous bacteria. The water should turn a rather deepish pink, a condition which shows that the disinfectant has done its work and may be drunk in this rosy hue with confidence.

Mrs. Richards evidently does not put her faith in filtered water. She says, "Do not boil and filter, but filter and boil." These are valuable bits of information which, coming from such an authority, may be accepted with confidence by the anxious house mothers who realize that, with all good plumbing, cleanliness and wholesome food,

their families may still be exposed to the most serious contagion by way of the water faucets.

The Fashion in Gloves.

Fashion has changed more than usual as regards gloves the last year owing to the change that has been made in sleeves. It is quite impossible, now that the sleeves come so far down over the hands and fit so tightly about the wrists, to wear the long gloves, and the mousquetaires which have been in favor so long are uncomfortable and bulky with almost all the new gowns and jackets that have the new sleeves.

One button glove cannot be said to have met with universal approval, but are occasionally worn. The length, however, is equal to that of a two button glove. Two buttons have this season quite superseded the three and four, but they also are longer than two button gloves were made formerly. Heavy kid and dogskin are generally used for them, as they are, as a rule, street gloves. For summer wear there is one style of white suede made on the same lines, and a heavy white glace kid with heavy stitching is also worn with wash gowns.

White glaze, two, three and even four button, heavily stitched gloves are yet in favor for smart occasions—calling, receptions, etc. These gloves can only be worn once without looking soiled, particularly if worn with dark gowns or wraps. Even the utmost circumspection when wearing them does not seem to be of much avail. In consequence many women prefer the black suede, which certainly are more economical, and yet are not so effective.

Girl Bachelors.

"Let no one suppose my aim is to promote bachelorhood, feminine or masculine. On the contrary, it is to promote matrimony, but at the same time the happiest and best interests of the women who marry." Such is the declaration of the woman who is known as the most famous bachelor girl of the century. Miss Alice E. Mosley of Indiana has started a novel and apparently difficult mission—that of making converts to the cause of bachelorhood in her own sex. In pursuance of this idea she has formed a society and started on an active campaign. However, the entrance vows are not so binding or so unreasonable as might be supposed, the only pledge being a promise not to marry before the age of 25.

On the whole, the motive seems to be a worthy one, though the method of procedure in canvassing the country for proselytes is rather startling to eastern ideas.—New York Tribune.

Smart Stationery.

The monogram is a feature of smart stationery. Just now we are using the little Louis XV rococo frame or some kind of circle to inclose it. The bow-knot is, of course, in evidence, and the stationer's art supplies very dainty variations of this Frenchy design.

For many years the custom of stamping the address with white ink on gray or blue paper has been seen at intervals in this country, but London sends over the fad as something new. An authority says that the address dies in London are larger and sunk deeper than those made in America, and thus allow the white ink or paint to stand forth in bolder relief. American engravers cut their dies, while those in England and France stamp their letters into steel blocks by a powerful letter stamp. This makes the cutting much deeper and sharper and gives a better effect than our way.

A Woman Warden.

A woman has acted as warden of the hospital in Sutter county, Cal., for several years. The grand jury of that county, in its recent report, says: "We visited the hospital and find therein seven patients. On conversing with them we find that they are satisfied with their treatment. The wards and dining room are neat and well kept, and they are well supplied with wholesome food and medicine. We find that the present warden has proved herself efficient and capable and has performed her duties in a most satisfactory manner."

One Reward.

It would not be very easy to show that women live longer than men because the latter think harder and work harder. The more evident explanation is that women live longer because they are not so addicted to certain habits as are men and that it comes as a reward for being less worldly and less fierce in the struggle for wealth and fame.—Boston Daily Globe.

Woman Court Clerk.

Miss Christine Law of Springfield, Mass., has been appointed assistant clerk of courts. Miss Law is said to be the first young woman in Massachusetts to receive this distinction. She has won it through her conscientious work as chief assistant in the office under Robert O. Morris. The appointment is for three years.

It is said that Miss Belle Norman, who was a candidate for election to membership on the board of education in St. Louis, is the first woman to enter the political arena of that city, and, though defeated, it is a significant fact that she received strong support, particularly from her own sex.

Mrs. Felix R. Brunol of Pittsburg, N. Y., has notified the board of foreign missions of the Protestant Episcopal church that she will build and endow for them a hospital for lepers in any part of China which they may select.

Women painted 10 per cent of the pictures in the Champs Elysees exhibition this year, but only 2½ per cent of those in the Champ de Mars building.

The Hon. Ella Scarlett, sister of Lord Abinger, is studying surgery at the London School of Medicine to qualify herself for medical work in India.

Strike Oil and Gas at Varna.
Lacon, Ill., June 22.—The water from the town well at Varna, Marshall county, has tasted of oil for some time, and it was thought that some one had thrown kerosene into it. Monday afternoon Martin Hickmon lowered a lantern into the well preparatory to cleaning it out, when there was a gas explosion that shook the town. Mr. Hickmon and the well platform and pump were blown ten feet into the air. The man was not injured. An examination of the well showed eight inches of crude oil on the surface of the water. The quantity does not diminish with repeated bailings.

Starving People Rescued.
San Diego, Cal., June 22.—When the steamer Carlos Pacheco arrived at Cedros islands the other day it found three starving persons. For a long time Dr. F. C. Powers and his mother have been on the island in charge of the property of the Cedros Island Mining Company. Dr. Powers, his mother and Dutch Gus, a sailor, had been living on a scanty supply of provisions for some time.

Must Go Abroad.
Chicago, June 22.—President W. R. Harper of the University of Chicago is seriously sick and has been ordered by his physician, Dr. Small, to give up all labor for the present and go to Europe. He will, therefore, leave early in July and will probably not return before the fall, at the earliest.

Famous Philanthropist Dying.
New York, June 22.—John I. Blair, New Jersey's famous old millionaire, is dying. Mr. Blair will be 95 years old Aug. 22, if death does not claim him before. He is said to be worth \$6,000,000, and has given much to charity. For months he has been in delicate health, and has frequent sinking spells. His attendants expect to see his end at any moment.

Bank Is to Be Reopened.
Washington, June 22.—The reorganization of the State national bank of Logansport, Ind., which failed recently through the speculations of its president, J. F. Johnson, is an assured fact. The reorganization papers reached Comptroller Eckels today and are satisfactory. The bank will open for business next Thursday under a new charter as the City national bank.

The Cheerful Idiot.
"One time," said the traveled boarder, "I got snowed in on the Rocky mountains and the only thing seven of us had for two days to sustain life was half a barrel of pickled pigs' feet."
"You were, indeed," said the cheerful idiot, "reduced to extremities."—Indianapolis Journal.

Must Be.

Watch our woollen window from now on and look at the bargains that will be offered in

Suits and Trousers

We will have two prices for our work—a union price, and also another. The other will be from \$4 to \$6 less. We prefer to get the union price and have the garments made here at home, but if you want to save the difference we can send it away and will guarantee the fit and the work.

We cut, trim and try on here. Our cutter has been with us long enough to prove that he is a first-class, up-to-date stylish workman. Ours is a union shop. We make this statement to offset the impression that some have that we are opposed to unions. You will get full value every time you deal with

Picnickers, Attention...

Those wishing to go up the river for a day's outing can make arrangements with C. A. Sanborn & Co. for the use of a Steam Launch with a capacity for carrying twenty

or twenty-five people. The launch can be run up river six or seven miles to any point the party wishes to stop at. A very neat little park, called "IDLEWILD," five miles up, that is especially nice for picnic parties, can also be arranged for.

Those wishing to camp out will find an ideal spot at "IDLEWILD PARK." Rates reasonable.
